I apologize for not listing the photographer's name. These were sent out on the CDF intranet. Rumor has that it was a CDF Chief Fire Officer. If anyone knows who we should let the credit go to for capturing so vividly the Wildland Urban Interface problem, please contact Hans Henneberque and we will announce their name at the workshop.

THIS WORKSHOP IS
DESIGNED FOR
BUILDING OFFICIALS,
FIRE CHIEFS, AND FIRE
MARSHALS TO INTERACT
WITH EACH OTHER.

- WUI regulations Phase I are currently in the code.
- Phase II will take effect with the implementation of the “I” codes. These new regulations present a dynamic philosophical change in the manner of protecting homes in the wildland areas.
- Building Officials will be responsible for enforcing these regulations. Fire Officials will need to support the Building Officials in implementation, planning, and plan review.
- Cooperation between building and fire officials is no longer a luxury or “good customer service.”

IT WILL NOW BE IMPERATIVE FOR BOTH DISCIPLINES TO BE SUCCESSFUL WITHIN THEIR RESPECTIVE FIELDS OF EXPERTISE. DON'T MISS OUT! NOT ONLY DO YOU NEED THE INFORMATION, WE NEED YOUR PARTICIPATION AND YOUR EXPERTISE!
